

Structural Engineering Technologist Job Description

Company:

BRON Ltd. (BRON) is an innovative and progressive multinational, interdisciplinary development consulting group of technical and business professionals. BRON Business Center for innovation is based in Nassau, The Bahamas, with additional offices in Florida, Turks & Caicos Islands and St. Kitts.

Job Summary:

BRON is looking for an innovative, dedicated, goal-focused, and strategic individual to fill the role of a Structural BIM Technician. The successful candidate will work with engineers and other technologists to provide design, drafting and construction inspection services for a variety of public and private sector clients with a focus on the buildings sector.

The successful candidate will gain experience in multiple market sectors and will have the opportunity to engage in a collaborative work environment with your team, as well as other disciplines and offices.

Job Duties:

- Responsible for the Development of Structural drawings using Revit Software.
- Supports Project Team in the development of design documentation, Plans, and reports for relevant Project Design elements.
- Assists in the development of design through sketches, electronic models, diagrams, and other visual formats.
- Utilizes BIM technologies in the development of three-dimensional models of Building Structural Systems.
- Prepares and revises documentation in various project phases including Site Plans, Floor Plans, Diagrams, and Details.
- Other duties as assigned

Qualifications:

- Candidate shall have 2 years minimum experience in structural engineering.
- Proficiency in AutoCAD is mandatory.
- An engineering candidate shall have successfully completed a Bachelor's degree in structural engineering or equivalent;
- A minimum of 2 years related work experience
- An understanding of CAD processes
- An understanding of the Bahamas Building Code
- Strong attention to detail and mathematical aptitude
- Strong oral and written communication skills
- Strong organization skills with the ability to prioritize multiple tasks and function in a fast paced, multi-disciplinary consulting environment

Salary: Commensurate with experience.

To Apply: Please email possibilities@bebron.com with your CV and references.
